

# THE ULTIMATE 12V PROFESSIONAL JUMP STARTER

NEW

The simple, clean design of the **1800 RAPID CHARGE** looks great, is tough and robust, with no cheap gimmicks.

We only use high-quality parts and materials. With this attention to detail and with less to go wrong, the 1800 RAPID CHARGE is incredibly reliable. Easy to use by a single operator, it is easy to carry, easy to store, gives easy access to cramped battery spaces, it is well-balanced and easily stands on its own.

High-rated, powerful battery, combined with the internal circuitry, produces 1800 Peak Amps starting power.

Powerfully starts vehicle engines time and time again.
